

## AUP checklist

For an AUP to be robust it needs to be reviewed and updated regularly, taking into consideration implementation issues that may arise. The following is a checklist that may be used when developing or revising an AUP.

1. Have AUP implementation issues arisen since the AUP was designed/revised?
2. Have these issues been discussed with parents, students and teachers and incorporated into an updated AUP?
3. Given that an AUP is in place, can the school confidently address the following scenarios?
  - A child is found using a chat room to arrange a face-to-face meeting with a friend.
  - The school uses filtering software but a child accidentally accesses a pornographic website while in your care.
  - A child publishes defamatory information on a personal website about a peer.
4. Has the AUP had a positive impact on curriculum delivery?
5. Has internal or external expertise assisted the formulation or reformulation of the AUP?
6. Has the school discussed the use of the Internet with parents and guardians?
7. Has the AUP as a code of Internet use transferred to home use?
8. Does an open dialogue exist between students and teachers relating to Internet misuse and safety issues?
9. Are teachers' and students' Internet safety training needs being met?
